A FAIR SETTLEMENT

A question of a franchise to render a popular service to the peo-ple of the city of St. Lang and a settlement of an accrude mill tax against the United Rudways has buought forth quite a discussion on the merits and dements of every proposition offered, as a basis for settlement. The officials of the company have maintained that "A Fair Settlement" is all they want; fair to those who have been induced to invest their earnings, both large and small, in the public service corporation. They maintain that they want only a fair return on their invested capital.

The people want more cars, better service, more loope, ex-

tention service, warmer and better ventilated cars.

The city administration wants the best street-car service, in

St. Louis that may be found in the country. The people want these things, the city needs these things and the company is willing to give these brings.

Of course, everyone knows that these comforts and improvements cost money and that a deal of it. Wages, steel and all in Kerial for ejupment and maintainance for such service. Is all in the first time the last caught must doubt the norm diprove. It certainly seems logical to us only the company can not give the kind of service the city needs.

unless a fair settlement is had.

There are those who always oppose any advancements or There are those who always oppose any advancements or imporpenents of any kind. It a subway or elevated street rail; way service was suggested for the "Fourth City." we guess the knockers would go into hysteria. But the people should remember that a street car is the poor man's automobile, and the more cars that a street car is the poor man's automobile, and the context of the proper most of the public service occupration is not crippled by the knockers, for hy are the losers after all.

THE POWER OF THE GOVERNMENT

It is remarkable how, by order of Fuel administrator Garfield, the wheels of our tadastries in certain sections of the country were stopped. Following closely the above order came the one from our local Fuel administrator Crossley who issued drastic orders that made every man woman and child know that we too are in the great war. These orders are just a foretaste of what, no doubt the people of this country will feel before the conflict

Many at first thought the order a kind of joke, and viewed it somewhat in the lights of the "clear up" orders issued by our police dapartment. But they soon found that they were up against a different proposition. They found that the men who issued those orders were backed by the government. They had all the power of the Army and Navy of the U. S. at their backs.

all the power of the Army and Navy of the U. S. at 'their backs' to enforce' their rule. This many of us, for the first time, realized what a government order means.

There was no dodging the issue, no pleading of State rights. Police of the rities and the county sherriffs were on the alert, asying. "The biddings of Uucle Sam must be carried out,"

It is wonderful to think of the power of this government even in the most misute details of small or great matters. We have a longing forour "Unite Sam" to speak a word to the American white people in the help of view, and insiste of view of the Collection. white people in the hehalf of right and justice for the Colored people of the United States. It accreedy took twenty-four hours to get the American people in the harness, working and doing the things that few thought would ever happen. Likewise, if President Wison sholds just say the word, lynching and burning of Colored people would cease. Discrimination in all other various departments of the government would cease.

The Colored people are loyal to their flag, and they want that old flag to be loyal to them. We want it to ever wave, but do not want it to sheath it eggrywhen the Negro's rights are at take. white people in the hehalf of right and justice for the Colored people of the United States. It acarcely took twenty-four hours
